

### We are confident that 3D Sono Image is the best 3d Ultrasound Provider you can find in Vancouver.

Specialized in 3D/4D Imaging, **3D Sono Image** provides Highest Quality, Best Value 3D Ultrasound [Images](#) & 4D Ultrasound [Videos](#) in Vancouver, Burnaby, Tri-Cities, Surrey, Langley. Located in [Coquitlam](#) (Tri-Cities) our 3D Ultrasound clinic serves the expectant families from Vancouver, Richmond, Burnaby, Pico, Maple Ridge, Surrey, Langley, Abbotsford, Chilliwack, North Shore, Vancouver Island. Reading true testimonials and viewing images and videos on our website will help you take the informed decision.

### How to find the right place for your 3D Ultrasound and make an informed decision.

- Visit the Website, read [Testimonials](#), browse the [Pictures](#) and [Videos](#) provided by the particular 3D ultrasound facility.
- Ask **what the conditions are in case if baby does not cooperate**.
- Compare [the packages and prices](#). (We offer free rescan If your baby is not cooperative during your 3D/4D ultrasound session).
- Ask the **year when the ultrasound equipment** they use was produced. With the technology advancing every year, and the newer the [equipment and its software](#) - the better the quality of your 3D ultrasound pictures.
- Ask about the technician (name, licenses, experience in 3D Ultrasound). The quality of the final ultrasound images depends on the manual skills of the sonographer.
- If you want to share your wonderful 3D/4D ultrasound experience with friends and family - ask how many guests can be comfortably seated in the [scanning theatre](#).
- Visit social networks : [Facebook](#), [Twitter](#), [Blogger](#), [Youtube](#). Read people's comments, their previous experiences and see how popular the company is.
- Ask your friends about their experience. It is always better to go somewhere by the recommendation.
- The distance should be your last consideration. Since you don't go for a 3D Ultrasound every week, it is worth driving a little further and avoid disappointment with your 3D Images and Videos.

**If you are looking for life-time sweet memories, great images, top quality videos - 3D Sono Image is the best choice for your 3D Ultrasound experience.**

### Benefits of 3D/4D baby ultrasound

You are pregnant and you have so many questions. Boy or girl? How shall we call our baby? How will he or she look like? What is my baby doing? What is the personality of the baby am I carrying?

You will find the answers during your 3D/4D Ultrasound session. There is so much to see! He might be moving around, stretching, yawning, smiling, sucking his thumb even blinking and you have the chance to catch it all on film! Your baby's activities are recorded on DVD so you can share and enjoy it with your family as many times as you want. The best moments are captured as video clips and pictures on CD. Who thought you could start your baby album even before your baby is born!!

### Apart from being a great fun, 3D/4D ultrasound

- shows that Baby's life begins 9 months before the day of birth
- improves bonding between parents and their babies
- encourages the transformation into motherhood
- reduces harmful behaviour of expectant parents, such as smoking
- promotes family support
- helps to discover your baby's personality and to find the right name

**So enjoy your pregnancy! See your baby now and keep sweet memories!**

### Testimonials

Thank you so much for 3d Ultrasound experience. It is so nice you have such a large room to have all the family present. What a wonderful atmosphere!

Samantha and Tony,  
 Langley

Dear Alla, just a quick note to say thank you for the amazing service that you offer!!! My husband and I are so happy that we got to know our baby before birth and it was all so real. That's a really wonderful investment and I would definitely recommend it to anyone. Wonderful atmosphere, excellent service, great prices!!! Thank you very much!

Tatsiana S.  
 Burnaby

My husband really wanted to get 3D Ultrasound done. So, we consulted our doctor and I scheduled an appointment with 3D sono Image. During our scan the technician explained everything from start to finish. Our pictures turned out so perfect.

Sarah D.  
 Surrey

### It's interesting

Did you know that female fetuses move their mouths more often, and for a longer duration, than male fetuses and that about 10% of fetuses prefer to suck their left thumb and 90% their right thumb.
